The European perspective : join a network to support our Vision and Missions

**The Creative Ring is
a pan European network of local creative ecosystems,
i.e. formal and informal innovative communities
of creative entrepreneurs, innovators and other stakeholders,
with the ambition to enrich and revitalize our cities.**

The purpose of the creative Ring

Mobilizing Europe's creative potential by creating **connections and collaborations.**

Enabling them to boost their innovative power while realizing the **sustainable digital transition** in vibrant ecosystems across society.

Our ecosystems should not be seen as dots on a map
but as a service towards the multiple helix.

Ecosystems-as-a-Service

**Share best practices for building vibrant creative ecosystems
generating economical as well as societal impact**

A person wearing a blue checkered shirt is shown from the chest down to the hands. A small, rectangular electronic device with a glowing light is attached to the front of the shirt. Two thin white wires extend from the device, one to each of the person's palms. On each palm, there is a small, circular sensor with a grid pattern. The background is dark with vertical lines of light.

Deploy technology to enable co-creation & experimentation

Brussels Creative,

BRUSSELS
CREATIVE

A platform for the Brussels based Creative and Cultural ecosystem gathering political, academical and business leaders helping our Region towards more cross-over innovation and new socio-economical initiatives having an impact on our daily lives...

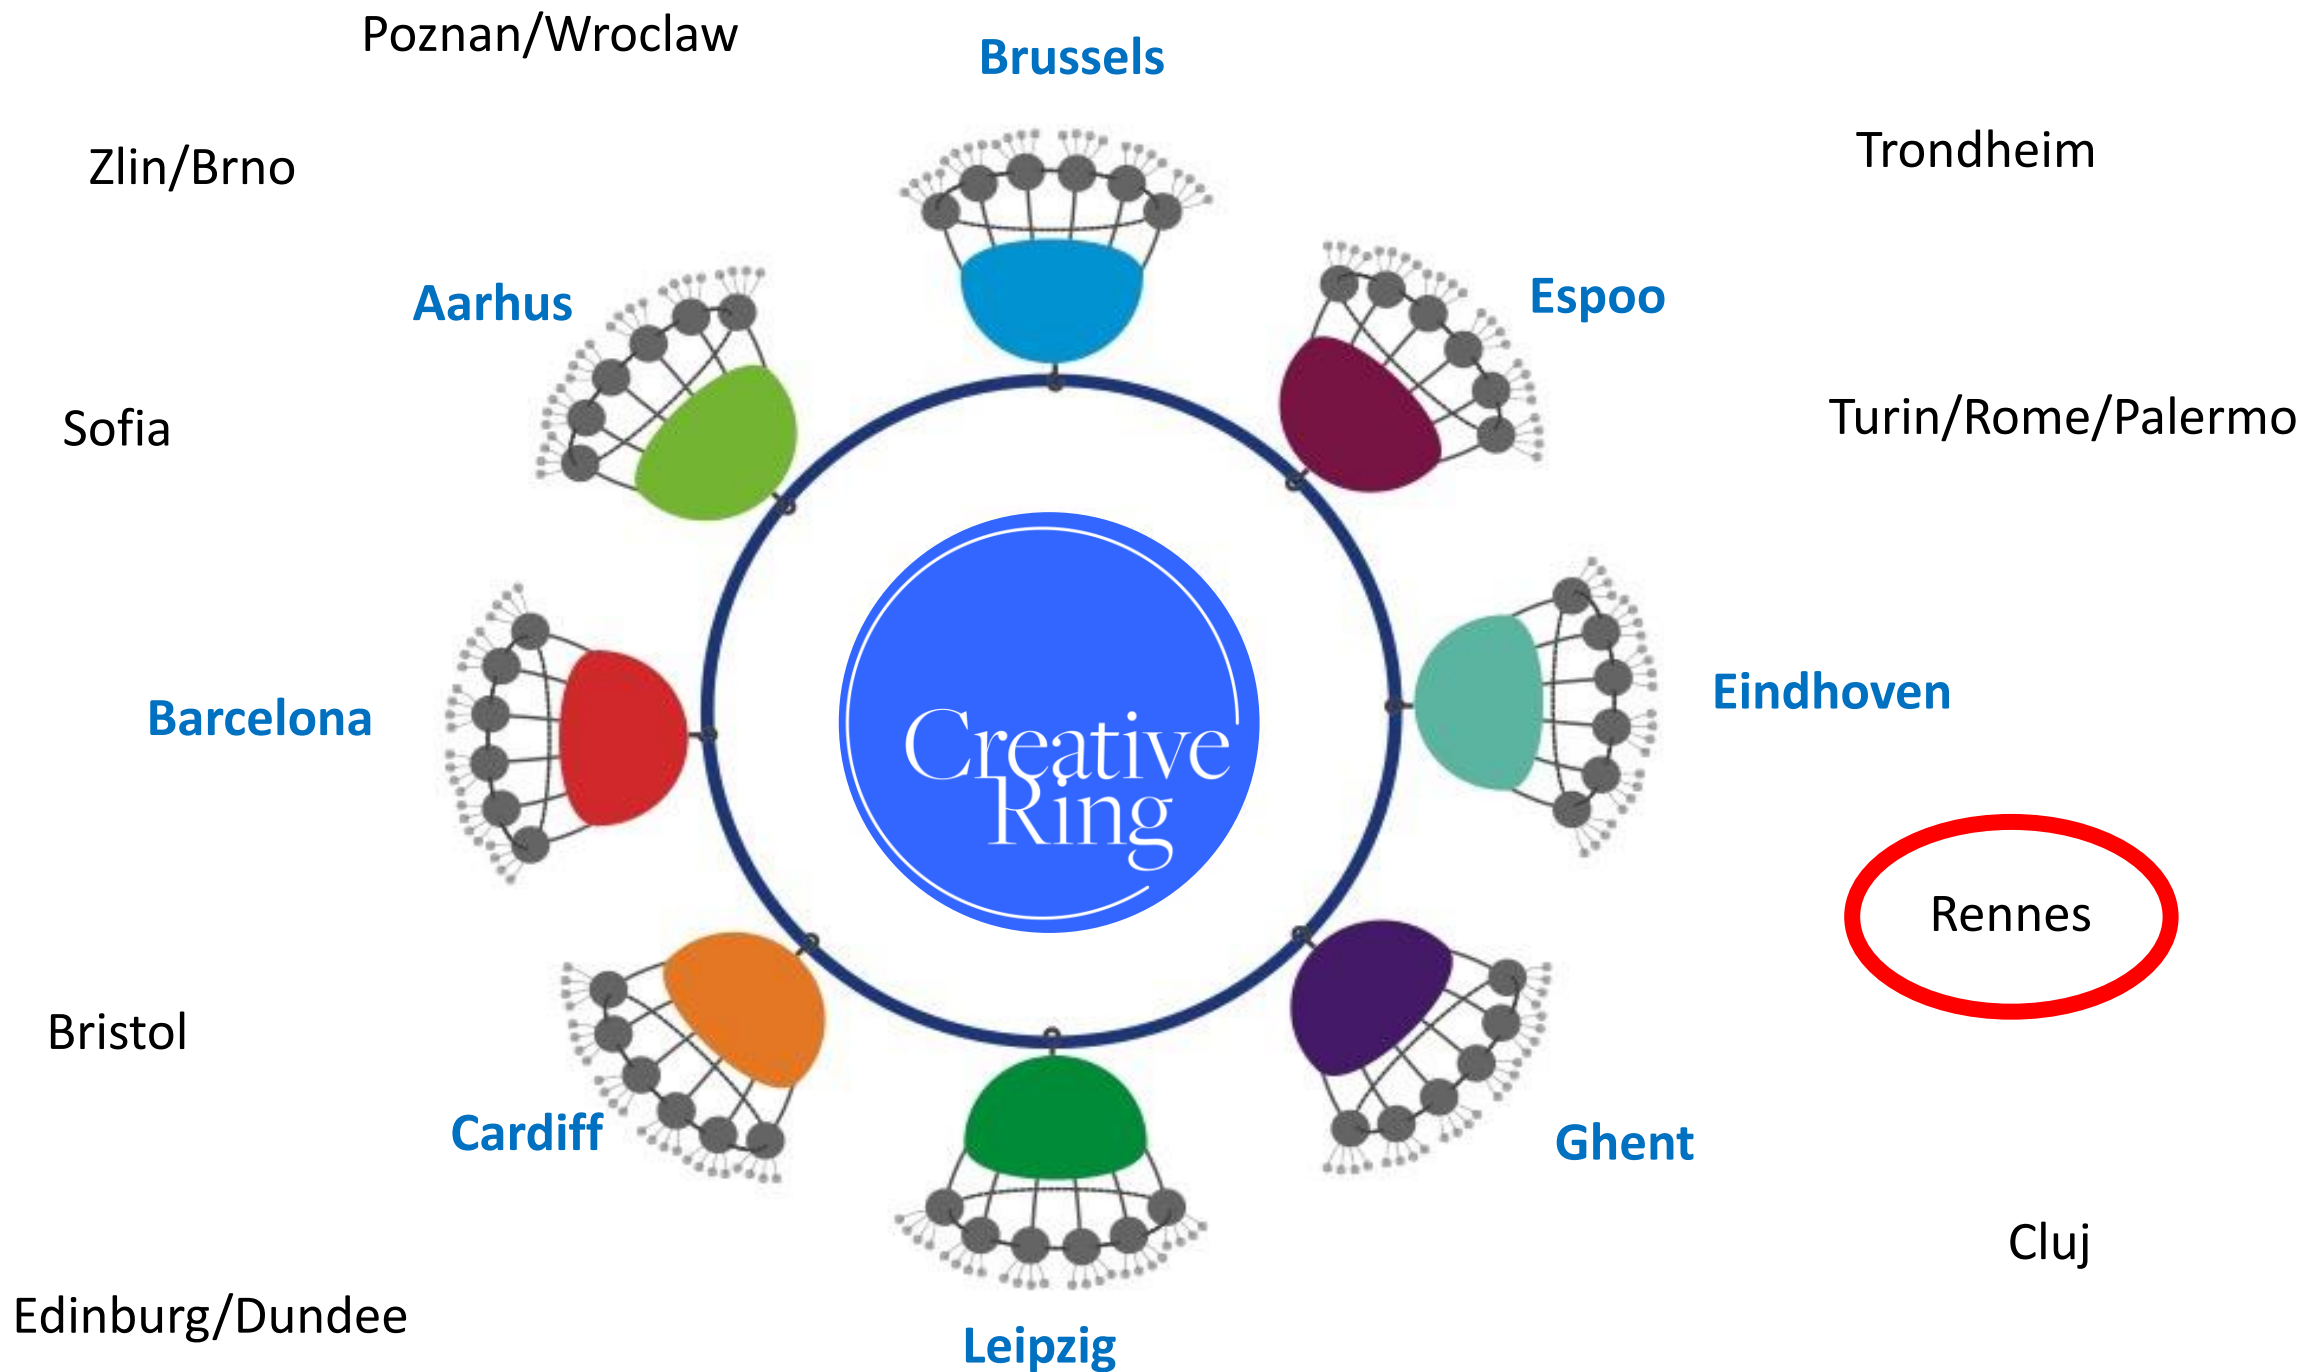

Systemic design thinking

Growing by doing, connecting and learning

from nodes, nouns, products,
services...

...to links, verbs,
relations, systems
